

THE ARIZONA PAIN AND ADDICTION CURRICULUM SUMMIT

NOVEMBER 1, 2018; 8:00AM - 4:30PM

[**REGISTER HERE!**](#)

It is our pleasure to invite you to the Arizona Pain + Addiction Curriculum Summit. **This summit will be a progressive, evidence-based, pharma-free conference where public health, clinicians and health educators present and discuss the [Statewide Curriculum](#)** that was jointly developed by Deans and Curriculum Representatives from every MD, DO, NP, PA, ND, DMD and DPM program in Arizona. **The key invitees are teaching faculty from Arizona MD, DO, NP, PA, ND, DMD and DPM programs.** This summit will present the major shifts in pain and addiction education, ranging from establishing a link between pain and addiction to a flipped socio-psycho-biological approach (vs. BPS) to the newest educational approaches to stigma. It is big picture and strategic in nature.

Please note:

- This is not an opioid conference.
- This is not a conference on prescribing guidelines.
- This is not a profit-driven conference.
- This is not a lecture-heavy conference.
- This is not an annual conference.
- **This is a one-time, unique joining of educational workforces to discuss Arizona's overhaul of clinical pain and addiction education.**

Further reading materials and agendas will be sent out later this fall. For now, please mark your calendars, peruse the curriculum, and forward to any interested faculty or staff member who educates learners about pain and/or addiction.

Details are included below, and will be maintained on the Curriculum
